### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, on page 1, under "Related Patent Application", delete the sentence therein and insert therefor:

-- This application is a division of and claims priority from United states Patent Application No. 09/939,990, filed August 27, 2001, now Patent No. 6.691,805. --

2. The following is an examiner's statement of reasons for allowance: The present invention is distinguished from Mueller, since the same set of surfactants is not disclosed. Reifschneider is distinguished in not teaching the specified ester or invert emulsion. The teaching of Tadros is not of sufficient specificity to render the composition of claim 34 obvious to one of ordinary skill in the art, since the specific ester is not taught, or suggested.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
